

## ***Apex 60 Player Evaluation - Gavin Pope***

Gavin showed he has the ability to hurt a defense from wherever on the field, he can shoot the long ball but will also finish inside with elegance. He was able to move the ball where he wanted and put passes into tight spaces without trouble because he has strong stick skills that allow him to make plays even when the defense is in the correct positioning. Gavin also does a great job of floating to open areas to create shots for himself. He utilizes the back of the defenders helmets by cutting behind them and forcing them to constantly turn their heads to find him. This created immense space within the offensive set for his teammates. Gavin showed that he is a big time player and can create opportunities for himself or his team depending on the situation.
